SECTION 1: CHEMICAL PRODUCT AND COMPANY INFORMATION

Company Address:
8125 Cobb Center Drive
Kennesaw, GA 30152

Product Information: 800-TECH-401
Customer Service: 800-645-5244

Emergency: (Chemtrec) 800-424-9300
Revision Date: February 10, 2007

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 3: HAZARDOUS IDENTIFICATION

Emergency Overview: Silver colored paint with an aromatic hydrocarbon odor. This product is flammable. Liquid and vapors will irritate eyes and skin. Breathing high concentrations of product may produce headache, nausea, and drowsiness.

Potential Health Effects:
Eyes: Vapors of this product may irritate the eyes. Liquid is irritating and may cause tearing, redness, swelling or temporary corneal damage.
Skin: Contact may cause irritation. Prolonged contact may cause dermatitis.
Inhalation: Harmful if inhaled. May cause headache, nausea, vomiting, dizziness, drowsiness, irritation of the respiratory tract/mucous membranes. Extreme overexposure may cause loss of consciousness and narcosis.

Pre-Existing Medical Conditions Aggravated by Exposure: Heart, lung, eye, skin.

SECTION 4: FIRST AID MEASURES

Eyes: Immediately flush with large amounts of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined by a physician if discomfort persists.
Skin: Remove contaminated clothing and wash skin with soap and water. Get medical attention if irritation develops or persists. Wash clothing separately before reuse.
Inhalation: If swallowed, give two or more glasses of water immediately. DO NOT induce vomiting. Get medical attention.

SECTION 5: FIRE FIGHTING MEASURES

Fire Fighting Instructions: Remove all ignition sources. Use water spray to cool overheated containers. Take care not to spread fire with water. As in any fire, wear self-contained breathing apparatus (pressure demand, OSHA/NIOSH approved or equivalent) and full protective gear. Solvent vapors are an explosion hazard. Keep material away from all sources of ignition, extreme heat, sparks or open flame. Material can be easily ignited and burns with intense heat.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Remove all sources of ignition (sparks, open flames, etc.). Wear self-contained breathing apparatus and appropriate personal protective equipment. Ventilate area and contain and absorb spills with inert material. Collect spill by scooping up liquids and absorbent material and place in a chemical waste container for proper disposal. Do not flush to sewer. Prevent material from entering storm sewers, ditches that lead to waterways and ground.
Small Spills: Absorb spill with absorbent material, then place in a chemical waste container for proper disposal.

SECTION 7: HANDLING AND STORAGE

Avoid prolonged or repeated contact with skin, eyes or clothing. Wash hands before eating. Use adequate ventilation. Avoid breathing product vapor. Do not reuse this container. Store in a cool dry place, away from heat, sparks or flames. Keep container tightly closed when not in use. Do not store in direct sunlight.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

Exposure Guidelines:

Work/Hygienic Practices: Good general ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. If vapor concentration exceeds TLV, use NIOSH approved organic vapor cartridge respirator. Wear safety glasses with side shields or goggles and rubber or other chemically resistant gloves when handling this material.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Silver colored paint  
Odor: Aromatic hydrocarbon  
Solubility in Water: > 10%  
Specific Gravity: 1.8-2.0  
Evaporation Rate: >1  
Vapor Pressure: 5-6 mmHg @ 20°C  
Butyl acetate=1  
Boiling Range: 259-378°F (127 – 192°C)

SECTION 10: STABILITY AND REACTIVITY

Stability: This product is stable.  
Conditions to Avoid: Avoid heat, sparks, open flame and strong oxidizing conditions.  
Incompatibility: Do not mix strong oxidizers, acids, bases, caustics, amines and alkali contamination.  
Products of Decomposition: Decomposition may release carbon monoxide, carbon dioxide, oxides of nitrogen, monomers and smoke. Depending on conditions, some highly reactive peroxides may be formed.  
Hazardous Polymerization: Will not occur. Material is not known to polymerize.  
Conditions to avoid: NA

SECTION 11: TOXICOLOGICAL INFORMATION

LD50 Oral  
Ingredients  
Silver >10000 mg/kg (mouse)  
Propylene Glycol Methyl Ether Acetate 8,500 mg/kg  
Ethylene Glycol Monobutyl Ether Acetate 2400 mg/kg  
n-Butyl Acetate 10,768 mg/kg  
Acrylic Resin NA  
Cancer Information: No ingredients listed as human carcinogens by NTP or IARC  
Reproductive effects: none  
Teratogenic effects: none  
Mutagenic effects: none

SECTION 12: ECOLOGICAL INFORMATION

Environmental Impact Information  
Avoid runoff into storm sewers and ditches which lead to waterways. Water runoff can cause environmental damage.

REPORTING

US regulations require reporting spills of this material that could reach any surface waters. The toll free number for the US Coast Guard National Response Center is: 1-800-424-8802

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of in accordance with all federal, state and local regulations. Water runoff can cause environmental damage.

SECTION 14: TRANSPORTATION INFORMATION

SECTION 15: REGULATORY INFORMATION

SECTION 313 SUPPLIER NOTIFICATION

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

Silver  
CAS#: 7440-22-4 35.0-65.0%

This information should be included on all MSDSs copied and distributed for this material.

TOXIC SUBSTANCES CONTROL ACT (TSCA)

All ingredients of this product are listed on the TSCA Inventory.

WHMIS: Class B2; Class D2B

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

SECTION 16: OTHER INFORMATION

Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.  
To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
