SECTION 1: CHEMICAL PRODUCT AND COMPANY INFORMATION  
Company Address:  
8125 Cobb Center Drive  
Kennesaw, GA  30152  
Product Information: 800-TECH-401  
Customer Service: 800-645-5244  
Revision Date: February 10, 2007  

Product Identification  
CHEMASK ® LEAD-FREE SOLDER MASKING AGENT  
Product Code: CLF8, CLF1  

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS  
Product Ingredient Information CAS#  Wt. % Range  
Polyisoprene emulsion (latex)  9003-31-0  90.0-98.0  
Zinc dibutyl dithiocarbamate  136-23-2  0.1-2.0  
Acrylic polymer mixture 1.0-5.0  
Methanol  67-56-1  1.0-3.5  
Titanium dioxide  13463-67-7  0.1-1.0  
Trimethyl quinoline homopolymer  26780-96-1  0.1-1.0  
Ammonium hydroxide  1336-21-6  0.1-1.0  

SECTION 3: HAZARD IDENTIFICATION  
Emergency Overview: Opaque, pink, viscous liquid with mild ammonia odor. This product is nonflammable. Breathing high concentrations of product vapor may produce drowsiness and a headache.  
Potential Health Effects:  
Eyes: Vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation.  
Skin: Contact may cause skin irritation and possible sensitization.  
Ingestion: Harmful if swallowed. Irritating to mouth, throat and stomach. Latex may solidify in intestinal tract.  
Inhalation: High concentrations of vapors can cause irritation of mouth, nose, throat and mucus membranes.  
Pre-Existing Medical Conditions Aggravated by Exposure: Lung, skin, eye.  

SECTION 4: FIRST AID MEASURES  
Eyes: Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by medical personnel if irritation develops or persists.  
Skin: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Wash clothing separately before reuse.  
Ingestion: If swallowed, do not induce vomiting. Get medical attention immediately.  
Inhalation: In case of exposure to high concentrations of vapor, remove to fresh air. If breathing is difficult, give oxygen and get medical attention.  

SECTION 5: FIRE FIGHTING MEASURES  
Flash Point: None to boiling (TCC)  
LEL/UEL: NA  (% by volume in air)  
Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.  
Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure-demand, MSHA/NIOSH approved or equivalent) and full protective gear.  

SECTION 6: ACCIDENTAL RELEASE MEASURES  
Large Spills: Shut off leak if possible and safe to do so. Wear self-contained breathing apparatus and appropriate personal protective equipment. Allow latex to dry, scrape up and place in a chemical waste container for proper disposal. Do not flush to sewer. Avoid runoff into storm sewers and ditches which lead to waterways.  
Small Spills: Scrape up dried latex, then place in a chemical waste container for proper disposal.  

SECTION 7: HANDLING AND STORAGE  
Avoid prolonged or repeated contact with eyes, skin, and clothing. Wash hands before eating. Use with adequate ventilation. Avoid breathing product vapor. Do not reuse this container. Store in a cool dry place away from heat, sparks and flame. Keep container closed when not in use. Do not store in direct sunlight.  
KEEP OUT OF REACH OF CHILDREN.  

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION  
Exposure Guidelines:

Work/Hygienic Practices: Good general ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. If vapor concentration exceeds TLV, use NIOSH approved organic vapor cartridge respirator. Wear safety glasses with side shields (or goggles) and rubber or other chemically resistant gloves when handling this material.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Opalque, pink liquid
Odor: Mild, ammonical
Vapor Pressure: 760 mm Hg @ 100°C
Vapor Density: <1 (Air =1)
Boiling Point: 212° F (100°C) initial

Solubility in Water: Dispersible
Specific Gravity: NA
Evaporation Rate: >1.0
(Volatile=1)
Viscosity: 190,000 cps

SECTION 10: STABILITY AND CHEMICAL PROPERTIES

Stability - Stable.
Conditions to Avoid: Storage above 120°F, exposure to light, loss of polymerization inhibitor, contamination with incompatible materials.
Incompatibility: Do not mix with powdered alkali and alkaline earth metals or strong oxidizing agents.
Products of Decomposition: Thermal decomposition may release carbon monoxide, carbon dioxide and hydrocarbons.
Hazardous Polymerization: Will not occur

SECTION 11: TOXICOLOGICAL INFORMATION

Inhalation: Methanol LC50/rats 64,000ppm/4hrs
Ingestion: Methanol LD50 5,628 mg/kg
Cancer Information: No ingredients listed as human carcinogens by NTP or IARC
Reproductive effects: none
Teratogenic effects: none
Mutagenic effects: none

SECTION 12: ECOLOGICAL INFORMATION

Environmental Impact Information
Avoid runoff into storm sewers and ditches which lead to waterways. Water runoff can cause environmental damage.

REPORTING
US regulations require reporting spills of this material that could reach any surface waters. The toll free number for the US Coast Guard National Response Center is: 1-800-424-8802

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of in accordance with all federal, state and local regulations. Water runoff can cause environmental damage.

SECTION 14: TRANSPORTATION INFORMATION

Air: Coating Compound - Not Regulated
Ground: Coating Compound - Not Regulated

SECTION 15: REGULATORY INFORMATION

SECTION 313 SUPPLIER NOTIFICATION
This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

This information should be included on all MSDSs copied and distributed for this material.

TOXIC SUBSTANCES CONTROL ACT (TSCA)
All ingredients of this product are listed on the TSCA Inventory.
WHMIS: Class D2B
This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

SECTION 16: OTHER INFORMATION

Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
