SECTION 1: CHEMICAL PRODUCT AND COMPANY INFORMATION

Company Address:
8125 Cobb Center Drive
Kennesaw, GA 30152

Product Information: 800-TECH-401
Customer Service: 800-645-5244

Emergency: (Chemtrec) 800-424-9300
Revision Date: February 10, 2007

Product Identification

CHEMASK ® LEAD-FREE SOLDER MASKING AGENT

Product Code: CLF8, CLF1

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 3: HAZARD IDENTIFICATION

Emergency Overview: Opaque, pink, viscous liquid with mild ammonia odor. This product is nonflammable. Breathing high concentrations of product vapor may produce drowsiness and a headache.

Potential Health Effects:

Eyes: Vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation.

Skin: Contact may cause skin irritation and possible sensitization.

Ingestion: Harmful if swallowed. Irritating to mouth, throat and stomach. Latex may solidify in intestinal tract.

Inhalation: High concentrations of vapors can cause irritation of mouth, nose, throat and mucus membranes.

SECTION 4: FIRST AID MEASURES

Eyes: Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by medical personnel if irritation develops or persists.

Skin: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Wash clothing separately before reuse.

Ingestion: If swallowed, do not induce vomiting. Get medical attention immediately.

Inhalation: In case of exposure to high concentrations of vapor, remove to fresh air. If breathing is difficult, give oxygen and get medical attention.

SECTION 5: FIRE FIGHTING MEASURES

Flash Point: None to boiling (TCC)

Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.

Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure-demand, MSHA/NIOSH approved or equivalent) and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Shut off leak if possible and safe to do so. Wear self-contained breathing apparatus and appropriate personal protective equipment. Allow latex to dry, scrape up and place in a chemical waste container for proper disposal. Do not flush to sewer. Avoid runoff into storm sewers and ditches which lead to waterways.

Small Spills: Scrape up dried latex, then place in a chemical waste container for proper disposal.

SECTION 7: HANDLING AND STORAGE

Avoid prolonged or repeated contact with eyes, skin, and clothing. Wash hands before eating. Use with adequate ventilation. Avoid breathing product vapor. Do not reuse this container. Store in a cool dry place away from heat, sparks and flame. Keep container closed when not in use. Do not store in direct sunlight.

KEEP OUT OF REACH OF CHILDREN.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines:

<td>250 ppm</td>
</tr>
<tr>
<td>Ammonium hydroxide</td>
<td>25 ppm</td>
<td>50 ppm</td>
<td>35 ppm</td>
</tr>
</tbody>
</table>

Work/Hygienic Practices: Good general ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. If vapor concentration exceeds TLV, use NIOSH approved organic vapor cartridge respirator. Wear safety glasses with side shields (or goggles) and rubber or other chemically resistant gloves when handling this material.

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

**Physical State:** Opaque, pink liquid  
**Odor:** Mild, ammoniacal  
**Vapor Pressure:** 760 mm Hg @ 100°C  
**Vapor Density:** <1  
(Air =1)  
**Boiling Point:** 212°F (100°C) initial  
**Solubility in Water:** Dispersible

**Specific Gravity:** NA  
**Evaporation Rate:** >1.0  
(Butyl acetate=1)  
**Color:** Pink  
**Vapor Density:** <1 (Butyl acetate=1)  
**Viscosity:** 190,000 cps

### SECTION 10: STABILITY AND CHEMICAL PROPERTIES

**Stability:** Stable.  
**Conditions to Avoid:** Storage above 120°F, exposure to light, loss of polymerization inhibitor, contamination with incompatible materials.  
**Incompatibility:** Do not mix with powdered alkali and alkaline earth metals or strong oxidizing agents.  
**Products of Decomposition:** Thermal decomposition may release carbon monoxide, carbon dioxide and hydrocarbons.  
**Hazardous Polymerization:** Will not occur

### SECTION 11: TOXICOLOGICAL INFORMATION

**Inhalation:**  
** limitee:**  
**Exposure Limit:**  
**Ingestion:**  
**Methanol L C50/rats 64,000ppm/4hrs**  
**Methanol LD50 5,628 mg/kg**

**Cancer Information:** No ingredients listed as human carcinogens by NTP or IARC

**Reproductive effects:** none  
**Teratogenic effects:** none  
**Mutagenic effects:** none

### SECTION 12: ECOLOGICAL INFORMATION

**Environmental Impact Information**  
Avoid runoff into storm sewers and ditches which lead to waterways. Water runoff can cause environmental damage.

**REPORTING**  
US regulations require reporting spills of this material that could reach any surface waters. The toll free number for the US Coast Guard National Response Center is:  
1-800-424-8802

### SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of in accordance with all federal, state and local regulations. Water runoff can cause environmental damage.

### SECTION 14: TRANSPORTATION INFORMATION

**Air:** Coating Compound - Not Regulated  
**Ground:** Coating Compound - Not Regulated

### SECTION 15: REGULATORY INFORMATION

**SECTION 313 SUPPLIER NOTIFICATION**  
This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS#</th>
<th>Wt. % Range</th>

</tbody>
</table>

This information should be included on all MSDSs copied and distributed for this material.

**TOXIC SUBSTANCES CONTROL ACT (TSCA)**  
All ingredients of this product are listed on the TSCA Inventory.

**WHMIS:** Class D2B  
This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

### SECTION 16: OTHER INFORMATION

Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
