### POTENTIAL HEALTH EFFECTS:

**Eye Contact:**      Solid metal does not pose a hazard. Contact with powdered metal alloy or fume from molten metal may cause irritation. Severe eye damage may result from hot molten metal being splashed into the eyes. Dust may cause irritation.

**Ingestion:**      Not generally considered toxic, but large amounts may cause irritation.

**Inhalation:**      Dust may cause irritation to the respiratory tract. Inhalation of zinc dust may cause a sweet taste, throat dryness, cough nausea and fever.

**Skin Contact:**      Mechanical irritant upon contact. Cannot be absorbed through skin. Hot molten metal may cause burns to the skin. **Antimony, Zinc, Cobalt and Nickel** – have been known to cause dermatitis.

**Chronic:**      Standard metal does not pose a hazard. However, melting, cutting, burning, or grinding may cause hazards: irritation or harm. Prolonged inhalation may cause harm.

**Silver** – chronic skin contact or ingestion of silver dusts, salts or fume can result in a condition known as Argyria, a condition with bluish pigmentation of the skin and eyes.

**Indium** – may cause damage to respiratory system if inhaled over long periods of exposure.

**Copper** – over exposure to fumes may cause metal fume fever (chills, muscle aches, fever, dry throat, cough, weakness, lassitude), metallic or sweet taste, discoloration of skin and hair.

**Nickel** – poison by ingestion. Can cause pulmonary asthma, and hypersensitivity.

**Tin** – prolonged inhalation of dust or fume may result in irritation of the lungs.

**Aluminum** – inhalation of finely divided powder has been reported to cause pulmonary fibrosis.

**Note:** The Indium Corporation does not recommend, manufacture, market or endorse any of its products for human consumption.

**Warning:** This product may contain a chemical (s) known to the State of California to cause cancer and birth defects (or other reproductive harm). (nickel and trace levels of lead not intentionally added) Applicable in the State of California .

#### 4. FIRST AID MEASURES

- Eye Contact:** Hold eyelids apart and flush eyes with plenty of tepid water for at least 15 minutes. Seek medical attention if irritation persists.
- Ingestion:** If patient is conscious, ONLY induce vomiting as directed by trained personnel. NEVER give anything by mouth to an unconscious person. Seek medical attention immediately.
- Inhalation:** Remove to fresh air. If not breathing, give artificial respiration or oxygen by trained personnel. Seek immediate medical attention.
- Skin Contact:** Remove contaminated clothing. Wash affected area with soap and water. Wash clothing before reuse. If irritation persists, obtain medical attention.

#### 5. FIRE FIGHTING MEASURES

- Flash Point:** Not established. **Method:** Not established.
- Auto-ignition Temperature:** Not applicable
- Flammable Limits:** Fine dusts and powders could be a potential explosion hazard.
- Extinguishing Media:** Use extinguishers appropriate for the surrounding fire conditions. Use dry sand, sodium chloride, or dolomite. Water, A/B/C extinguishers and halogenated agents are not recommended.
- Special Fire Fighting Procedures:** Firefighters wear an approved self-contained breathing apparatus and full protective clothing.

## 6. ACCIDENTAL RELEASE MEASURES

**Spill or Leak Procedures:** Wear respirator and other personal protective clothing. (See Exposure Controls/Personal Protection Section). Extinguish or remove all sources of ignition. Ventilate area. Clean up spill without generating or dispersing dust into the air. Vacuum solids instead of sweeping using a grounded unit. Reduce airborne dust and prevent scattering by moistening with water. Place spilt material in a container and dispose of in accordance with applicable regulations.

## 7. HANDLING AND STORAGE

**Handling Precautions:** Avoid breathing vapors from heated material and dusts from cutting or grinding. Avoid contact with eyes, skin and clothing. Follow routine safe handling procedures. Use with adequate ventilation.

**Storage Precautions:** Keep away from heat and flame. Store in suitable, tightly capped, and labeled containers in cool dry, well-ventilated area. Empty containers may be hazardous as they contain product residue.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Engineering Controls:** Local exhaust ventilation or point source exhaust ventilation is recommended to control any air contaminants or potential exposure. Keep exposures below regulatory limits.

### Personal protection:

**Eyes:** Chemical safety glasses/goggles. Face shield recommended when handling molten metal.

**Respirator:** An authority approved or compliant marked air-purifying respirator with a fume/dust chemical cartridge is recommended under certain circumstances where airborne concentrations are expected to be elevated. Warning: Air purifying respirators do not protect the worker in oxygen-deficient atmospheres.

**Skin:** Wear protective gloves. Hot gloves for handling molten metal.

**Other:** Eye-wash fountain/shower in work area. Avoid the use of contact lenses in high fume and dust areas.

**Work/Hygienic** Maintain good housekeeping. Clean up spills immediately. Good personal hygiene is essential. Avoid eating, smoking or drinking in the work area. Wash hands thoroughly with soap and water immediately upon leaving the work area.
