## Techni-Tool Employees Play Jeopardy for Heart Health

**Worcester, PA, March, 2009** - In keeping with healthy living, Techni-Tool employees participated in a heart health program presented by WellNet Healthcare.

Education is important for good health, and WellNet Healthcare, supported by the American Heart Association, presented information geared toward keeping your heart healthy. Techni-Tool employees learned how nutrition and weight management, smoking, exercise, high blood pressure, heredity, good and bad cholesterol, and more effects our heart health.

The program was not only informative, it was fun when employees participated in a **Cardiovascular Jeopardy** game. Employees with the most correct "questions" won baskets of heart-healthy products. Other prizes were also raffled off.

The designation of February as the American Heart Month has dated back to 1963. It has been used to raise awareness regarding cardiovascular diseases, including stroke, a the nations number one killer among men and women.

### **About Techni-Tool**
