Join Us in the Fight Against Breast Cancer

Worcester, PA (June 2010): Techni-Tool continues to support Breast Cancer Research by donating a portion of the proceeds of their "pink" Techni-Stat ESD wrist straps.

According to the American Cancer Society, breast cancer is the second leading cause of cancer deaths among women. While progress is being made, there's still much work to do.

That's why Techni-Tool is proud to support breast cancer research, by donating a portion of the proceeds from the pink Techni-Stat ESD wrist straps. Many have been touched by this deadly disease, and we will continue to do our part to help find a cure.

Our pink Techni-Stat ESD wrist straps are designed to fit comfortably, feature a 1/8" (4mm) snap, and include a 6' or 8' coil cord with banana jack that attaches to an alligator clip. The wrist straps eliminate electro-static discharge and are widely used where damage to an electronic product damage may occur due to static discharge.

Help us fight the war against breast cancer--while you protect your sensitive electronics from ESD.
