

For Immediate Release

***Techni-Tool Honors Breast Cancer Awareness Month With
Donation From Tools for Life Proceeds***

Worcester, Pennsylvania, October, 2010 - In honor of Breast Cancer Awareness Month, Techni-Tool recently donated a portion of the proceeds from their *Tools For Life* line of pink ESD wrist straps to breast cancer research.

ESD wrist straps help eliminate electro-static discharge in the assembly of electronic products, and are widely used throughout many industries. As the leading distributor of electronic production, manufacturing and repair supplies, Techni-Tool is in a unique position to offer customers a way to combine business purchases with charitable interests.

In addition to the on-going *Tools For Life* program, Techni-Tool is inviting its employees to participate in a *Dress Down for the Cure Day* on Wednesday, October 13th. For a small donation, employees can wear casual attire, such as jeans or Breast Cancer Awareness T-shirts to show their support for breast cancer research. Proceeds from this program are being matched by Techni-Tool and donated to Breast Cancer research.

"Finding the cure for breast cancer is certainly the goal of everyone who has been touched by this disease, and Techni-Tool is no exception," says Paul Weiss, President of Techni-Tool. "Pride in our products and support of our community has always been the Techni-Tool philosophy, and we are all looking forward to being able to pass the proceeds from this product on to the fight against breast cancer."
