

For Immediate Release

Techni-Tool Offers Full Line of Wafer-Handling Tweezers

July 2008 - Worcester PA - Techni-Tool is pleased to announce the availability of the full line of Techni-Tool brand wafer-handling tweezers.

Techni-Tool brand tweezers are specially designed to meet the precision requirements of the electronics industry. They are hand-crafted of the finest alloys available and are lightweight, yet very durable. Designed with stops to prevent chipping wafers and for handling delicate and fragile silicon wafers, the special blades allows easy wafer pickup. The tweezers are made of premium anti-magnetic, anti-acid, stainless steel. Styles are available for all standard wafer sizes.

For ESD-safe applications, Techni-Tool also offers tweezers with replaceable carbon tips and an EZ lever handle. These Swiss-made tweezers are available for handling up to 10" wafers safely and easily.

Techni-Tool brand products are manufactured by industry-leading companies and offered to customers at lower prices.

To find out more about these and all Techni-Tool products, contact a Techni-Tool representative at 800-832-4866 or visit our website at <http://www.techni-tool.com>.
