

Try It Before You Buy It!

Get your **FREE** sample of **Ultra-Clear 807** Flux-Cored Wire Solder

Ultra-Clear 807 flux-cored wire solder combines the latest in tin/lead and Pb-Free flux technology. It's cored with a high-reliability flux made with ultra-clear modified rosins and contains no brominated fire retardants or REACH substances of very high concern. Available in a full range of activity levels, this industry workhorse provides excellent solder spread and fast wetting speed, minimizing the rework cycle time that's typically longer with Pb-Free solders. RoHS-compliant Ultra-Clear 807 contains a small amount of halogen and provides superior reliability on even the most sensitive electronic assemblies, yet meets IPC J-709 requirements for halogen-free assembly.

Features:

- Exceptional heat stability
- Compatible with tin/lead, Pb-Free, and high lead-containing alloys
- Low smoking
- Minimal spattering
- Virtually void-free
- Pleasant honey cream scent

READY TO TRY IT?

To choose either sample:

1. Sn63 Pb37 .032" Diameter
2. SAC305 .032" Diameter
